

A-ONE
KITCHEN EQUIPMENT CO.

DESIGNING, FABRICATION, INSTALLATION of

Commercial Kitchen Appliances, Refrigeration, Food Service Equipment, etc.

www.aonekitchenequipment.com

SINGLE BURNER RANGE

- + High quality brass burners.
- + The fine finish and fuel efficient.
- + Safety features and easy operation of the burner.
- + Dimensionally accurate.
- + Rust resistance.

TWO BURNER RANGE

- + Superior quality raw material.
- + High quality brass burners.
- + The fine finish and fuel efficient.
- + Safety features and easy operation of the burner.
- + Rust resistance.

THREE BURNER RANGE

- + High quality brass burners.
- + The fine finish and fuel efficient.
- + Safety features and easy operation of the burner.
- + Dimensionally accurate.
- + Rust resistance.

CHINESE COOKING RANGE

- + Excellent finish.
- + Intricately designed using quality approved raw material.
- + Elegant cooking burners for diversely used in hotels and restaurant for preparing different types of cuisines swiftly.

FOUR BURNER RANGE WITH OVEN

- + Superior quality 4 Burner Range with Oven.
- + High grade raw material and latest technology.
- + Tested on several parameters to ensure the flawlessness of these products.

TANDOOR (GAS / CHARCOAL)

- + The best Tandoor available in the market.
- + Crack resistant pot.
- + Best insulation – energy efficient.
- + High quality wheels.

CHAPATI PLATE WITH PUFFER

- + Hot plate with puffer.
- + RV burner.
- + Stainless steel structure.
- + SS round pipe.
- + Heavy duty MS Plate.

DEEP FAT FRYER

- + Made from Stainless Steel.
- + Reinforced basket.
- + Thermostat and safety cut-off probe and reset button.
- + Shockproof protection on resistance easily disassembled.

FLOOR MOUNTED FRYER

- + Special long-lasting stainless steel heating elements.
- + Large heating elements ensures efficiently at a given power.
- + Stainless Steel tank lids.
- + Simple fryer stripping procedure for easy cleaning.

BARBEQUE GRILL

- + SS Inner pipe frame and leg structure with Nylon adjustable bullet feet.
- + The fine finish and fuel efficient.
- + Available in various specifications.

BAIN MARIE WITH SNEEZE GUARD

- + Corrosion resistance.
- + Easy to clean.
- + Safe water draining valve.
- + Premium finish.
- + Sturdy construction.

SHAWARMA MACHINE

- + All stainless steel body.
- + Good-looking.
- + Structure reasonable. Easy in use.
- + High-efficient heating elements.

HOT FOOD TROLLEY

- + Glasswool insulated body.
- + Hot section will have provision for holding Food Trays.
- + Thermostat controlled heating elements.

BARBEQUE COUNTER

- + High grade steel ensuring high strength and long service life.
- + Resistant to corrosion.
- + Customized design.

FOUR DOOR REFRIGERATOR

- + Entirely SS 304 construction.
- + Kirloskar / Emerson make compressor.
- + High cooling efficiency, energy-saving.
- + Specially designed structure, ensuring even temperature.

TWO DOOR REFRIGERATOR

- + Entirely SS 304 construction.
- + Kirloskar / Emerson make compressor.
- + High cooling efficiency, energy-saving.
- + Specially designed structure, ensuring even temperature.

UNDER-COUNTER REFRIGERATOR

- + Entirely SS 304 construction.
- + Kirloskar / Emerson make compressor.
- + High cooling efficiency, energy-saving.
- + Sturdy construction puff insulation.

PIZZA MAKING TABLE

- + Entirely SS 304 construction, with GN Pan on top.
- + Kirloskar/Emerson make compressor.
- + High cooling efficiency, energy-saving.
- + Sturdy construction puff insulation.

WATER COOLER

- + Entirely SS 304 construction.
- + Kirloskar / Emerson make compressor.
- + Offers faster cooling.
- + Provides completely pure water for drinking.

VISI COOLER

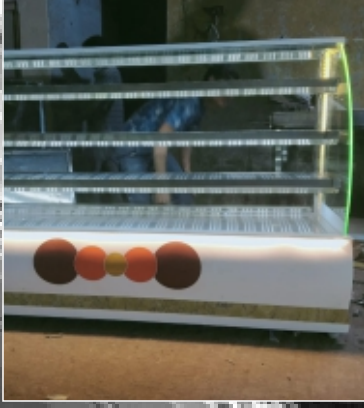

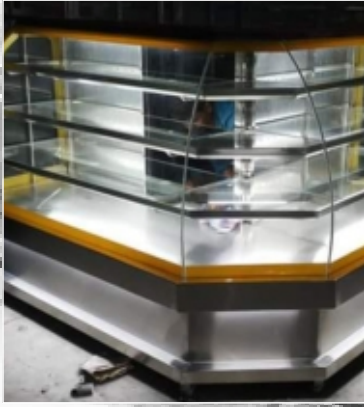

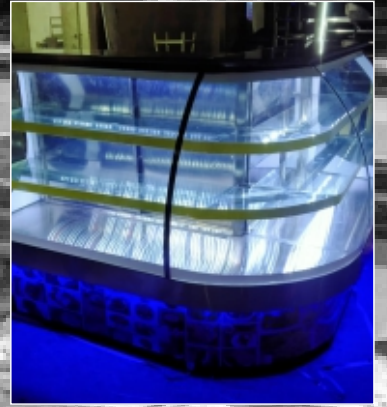

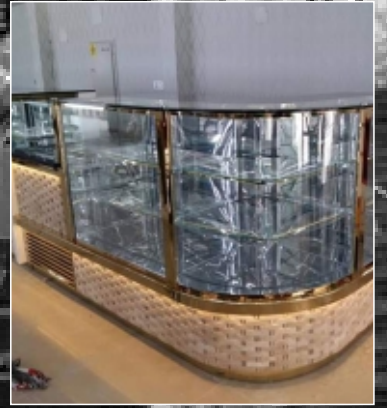

- + Improved Energy Efficiency.
- + Maintenance Free Condenser.
- + Offers faster cooling.
- + Integrated Door Handle.
- + LED Lighting.

COLD BAIN-MARIE

- + Entirely SS 304 construction.
- + Efficient cooling system.
- + Very spacious, easy to handle & durable.

DISPLAY COUNTER

WET GRINDER

- + High quality and good performance and well designed.
- + The grinder stone is made of hard black, export quality, special hard stone.
- + The roller stone crushes, mixes, pounds and grinds simultaneously.

PULVERISER

- + Made from Stainless Steel.
- + High torque of motors give fineness of greavy.
- + Easy to maintain.

POTATO PEELER

- + Heavy-duty stainless steel with a self tensioning poli-V belt drive.
- + High efficiency ventilated motors.
- + Bowl is removable for easy cleaning.
- + Low electric power consumption.

MEAT MINCER

- + High grade stainless steel body.
- + Combination of a sturdy motor, metal feeding screw, powerful cutter.
- + Cleaning is effortless.

ICE CRUSHER

- + Heavy Duty, high output commercial ice crusher.
- + Makes both fine and coarse crushed ice at the touch of a button.
- + Electronic control unit.

TILTING GRINDER

- + Made from Stainless Steel body.
- + Electric motor operated.
- + Low noise & low maintenance.
- + Easy to maintain.
- + Low electric power consumption.

VEGETABLE CUTTER

- + Manufactured using very fine quality stainless steel.
- + High quality cutting Aluminum die cast of stainless steel blades.
- + As per required sizes of vegetable blades are cast.
- + Highly durable & very safe to use.

SALAMANDER / TOASTER

- + Stainless Steel Construction.
- + Dual Energy Regulator Control.
- + Easy-Clean Crumb Tray & Reflector.
- + Long Life Stainless Steel Elements.
- + Advanced Control Safety Systems.

SANDWICH GRILLER

- + Good quality heater, well finish.
- + Nylon handle for better grip, shock & heat proof.
- + Cast iron plates, a spring counter balance top & armoured heating elements.
- + Quick temperature rising to grill meat, sausages, sandwiches.

MEAT MINCER

- + High grade stainless steel body.
- + Combination of a sturdy motor, metal feeding screw, powerful cutter.
- + Cleaning is effortless.

ROTARY TOASTER

- + Great performing conveyor toaster with excellent features.
- + Independent controls for single- or double-sided toasting.
- + Removable tray for easy cleaning.
- + Durable steel top and aluminized steel construction assures years of trouble-free service.

BLENDER

- + Specialized blenders for frozen drinks as well as smoothies.
- + Spindle Mixers & Citrus Juicer also available.
- + Durable longer functional life.
- + Fine finish & high performance.

IDLI STEAMER

- + Corrosion resistance Stainless Steel 304 contacting parts.
- + Easy to clean and maintain.
- + Efficient performance.
- + Operated with gas and can easily shifted at different place.

COFFEE MACHINE

- + Compact automatic espresso coffee machine.
- + Electronic switchboard to control the coffee dosages volumetrically.
- + Automatic water filling and copper boiler.
- + One steam tap and one hot water tap.

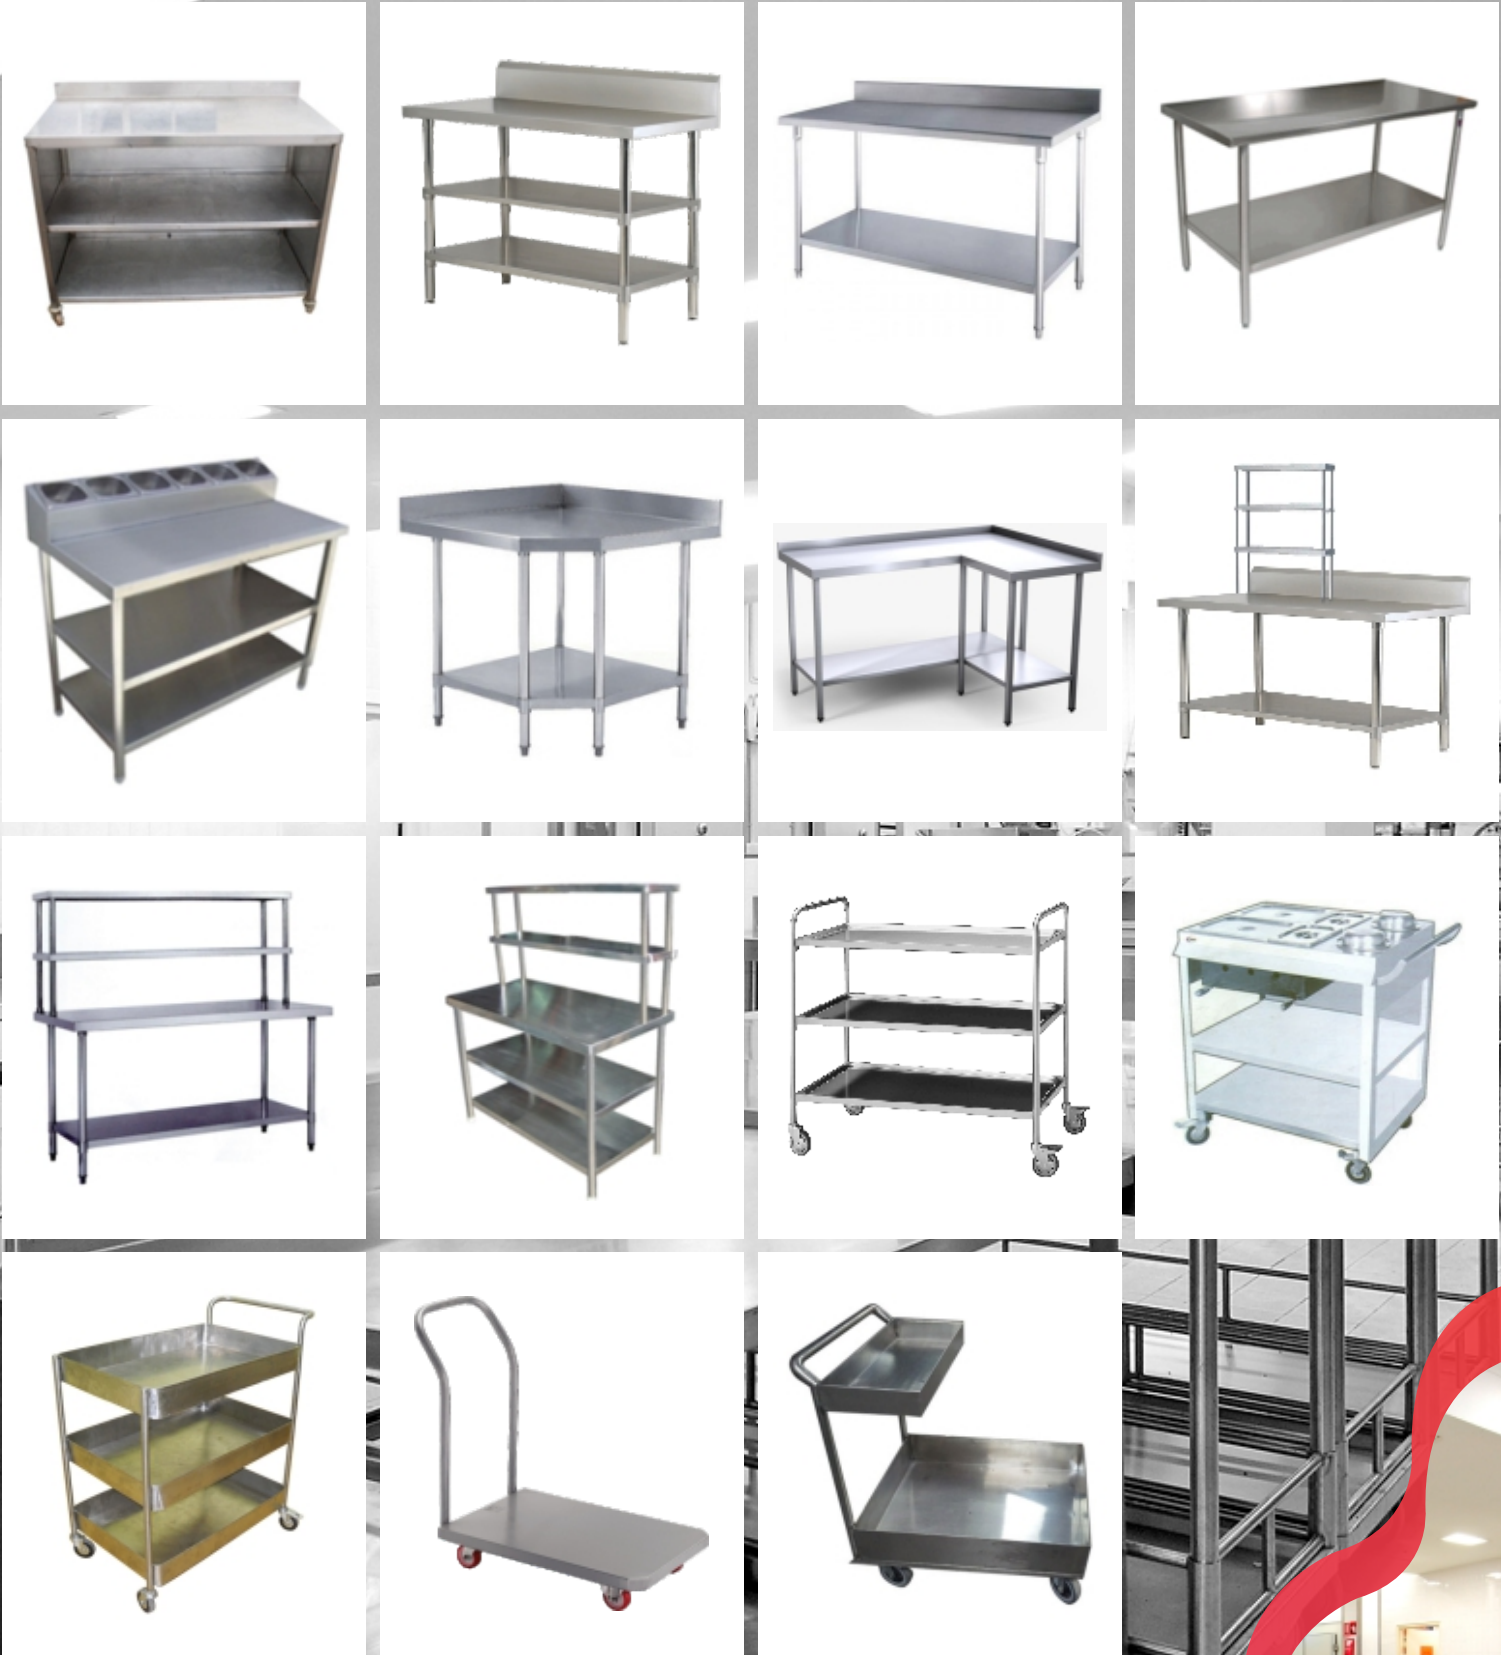

TABLE & TROLLEYS

SINGLE DECK BAKING OVEN

- + High quality glass wool insulated body.
- + Available in Gas or Electric operated mode.
- + Heavy MS interior, SS front and heavy legs.
- + Controlled heating system.

DOUBLE DECK BAKING OVEN

- + High quality glass wool insulated body.
- + Available in Gas or Electric operated mode.
- + Heavy MS interior, SS front and heavy legs.
- + Controlled heating system.

PLANATARY MIXER

- + Manufactured using high-grade raw material.
- + Complete with S.S. removable bowl, S.S. blade.
- + Easy operation and running.
- + Resistance to corrosion.
- + Better efficiency.

SPIRAL MIXER

- + Manufactured using high-grade raw material.
- + Designed specifically for the unique, high-quality dough.
- + Speeds up the mixing process, increasing mix consistency.
- + Speeds controller and programmable timers.

BREAD SLICER

- + High quality and good performance and well designed.
- + Reliable running, easy operation and high efficiency.
- + Ideal machine to slice bread and cake.

PROOFERS

- + Controls humidity with an imported humidity controller.
- + Unique heating and humidifying system.
- + The entire unit is fabricated with stainless steel.
- + The intermediate inter layer is made with polyurethane material.

DOUGH SHEETER

- + High quality & good performance and durable designed.
- + Various thickness adjustment and final thickness can be fixed.
- + Consistent performance.
- + Maintenance free reliability.

DISH-WASHER

- + Longer service life.
- + Low maintenance.
- + Easy to use.
- + Precise dimension.
- + Compact design.

GLASS-WASHER

- + Efficient functioning.
- + Innovative design.
- + High durability.
- + Sturdy design.
- + Corrosion resistance body.

SOILED DISH LANDING TABLE

- + Strong SS construction.
- + Durable design.
- + Accurate dimensions.
- + Corrosion resistant.

SINGLE SINK UNIT

- + Stainless steel sink unit with frame and shelf.
- + Sink bowls are supplied with one or two tap holes & 1 1/2" combined waste & overflow fitting.
- + Supplied fully assembled.
- + Special size sink tops are also available.

THREE SINK UNIT

- + Stainless steel sink unit with frame and shelf.
- + Sink bowls are supplied with one or two tap holes & 1 1/2" combined waste & overflow fitting.
- + Supplied fully assembled.
- + Special size sink tops are also available.

POT RACK

- + Excellent quality raw material.
- + High durability.
- + Reliable performance.

CLEAN DISH RACK

- + Excellent quality raw material.
- + High durability.
- + Corrosion resistant.

EXHAUST HOOD WITH FILTER

- + Superior exhaust flow rates.
- + Exceptional capture and containment of cooking vapors.
- + Wall or back-to-back island configurations.
- + Front design directs air into filters.
- + Grease drain system.

SS BAFFLE FILTER

- + Entirely SS 304 construction.
- + Longer service life.
- + Low maintenance.
- + Precise dimension.
- + Compact design.

HOT / FRESH AIR DUCT

- + Excellent quality raw material.
- + Highly durable sheet metal duct-line systems to suit your needs.
- + The function of our sheet metal duct-line system is mainly to absorb dust and to transport hot/fresh air efficiently without damaging the environment.

AXIAL BLOWER FAN

- + Wide range of air capacity & pressure.
- + Designed for an optimal relation between air quantity, pressure & power consumption.
- + Excellent performance.

CENTRIFUGAL BLOWER

- + Excellent quality raw material.
- + Low noise, hi-efficiency, light and reliable operation.
- + Application: general ventilation of high buildings and factories.

FIRE DAMPER

- + Low maintenance, Durable, Excellent performance.
- + The complex shape reduces the leakage factor considerable.
- + Fire exposed surfaces are backed-up by insulating material.
- + Due to special insulating material, the strength of the louver/flap is retained at high temperature.

GAS BANK & LPG PIPE LINE

- + Advance sensor based governing system to give quality voltage output with minimal fluctuations.
- + Special protected devices are installed.
- + Low maintenance cost.
- + Excellent performance.

Welcome to

A One Kitchen Equipment Co.

We are the leading manufacturer and supplier of high-quality commercial kitchen appliances to Hotels, Restaurants, Canteens, Industrial Kitchens, Bars, Clubs, Hospitals, and all other hospitality-related environments. Our manufacturing unit is based in Kolkata, we are well equipped with all modern machinery and equipment. We fabricate high quality and high utility commercial kitchen equipment. We guarantee the precision of production and product finishing to strictly international specifications and standards. We are assisted by a team of skilled professionals who are highly dedicated and sincere towards their task. Our team members are highly experienced.
